

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

- 1-6. (Canceled)
7. (Previously presented) A reagent that binds CD30, wherein the reagent is (1) an antibody produced by the cell DSZ1 stored at the German Microorganisms Collection (DSM) under the number DSM ACC2548; (2) a humanized version of the antibody of (1); or (3) a binding fragment of either the antibody of (1) or the humanized antibody of (2).
8. (Currently amended) The reagent of claim 7, which is linked to a toxin ~~and/or a~~ marking or a fluorescent group.
9. (Currently amended) The reagent of Claim 7, linked peptidically or *via* a linker molecule to ~~a molecule selected from the group consisting of~~ a toxic protein, an enzyme, ~~and or~~ a proenzyme.
10. (Previously presented) The reagent of Claim 9, wherein the toxic protein is a ribosome-inactivating protein.
11. (Previously presented) The reagent of Claim 9, wherein the enzyme is a phosphodiesterase.
12. (Currently amended) The reagent of Claim 9 ~~7~~, linked directly or *via* a linker molecule covalently or conjugated with a radioactive isotope.
13. (Previously presented) The reagent of Claim 12, wherein the radioactive isotope is selected from the group consisting of indium, iodine, yttrium, technetium, rhenium, copper and lutetium.

14. (Previously presented) The reagent of claim 8, linked directly or *via* a linker molecule covalently or conjugated with a photoactivatable compound.

15-17. (Canceled)

18. (Previously presented) An isolated cell, stored at the DSM under the no. DSM ACC2548.

19-28. (Canceled)

29. (Previously presented) A composition comprising the reagent of claim 7.

30. (Previously presented) A kit for diagnosing CD30-positive neoplasies and inflammatory diseases, comprising the reagent of claim 7 and instructions for use for the reagent.

31-33. (Canceled)
